

Press Release

For immediate release March 2010

coolcanals guides

Coolcanals Guides broadens both their appeal and their range.

Coolcanals Guides Ltd, the publisher of the waterways' most exciting book of 2009, has announced the launch of two companion titles in March 2010 - Weekend Walks and Pub Days Out. Both titles focus on the waterways of Britain and celebrate the variety of activities available to users of our canals and rivers.

Cool canals Weekend Walks

Publication date: 15 March 2010 ISBN: 978-0-9560699-1-7 Price: £12.99

About Martine & Phillippa:

Authors Phillippa Greenwood & Martine O'Callaghan have a mission to walk all the canals of Britain, in every season and all weathers, and have already backpacked from the sands of Cornwall to the Highlands of Scotland! The canals meander almost 2,000 miles over the Welsh mountains, the Peak District, across the Pennines, and through almost every rural contour and major city of the land.

About 'Cool canals Weekend Walks':

The first fruit of this mission is Weekend Walks. The best canal walks aren't just about walking – they're no fuss adventures, steeped in the wonders of the waterways. Martine & Phillippa have handpicked some of the best walks along the towpaths of our island & have included highlights from their end-to-end towpath trek.

Each walk in this book is different, with easy walking that's never short of thrills. Walk as far as you want, stop to sightsee as often as you want; and it's never a sin to linger over a canalside lunch.

Cool canals Pub Days Out

Publication date: 15 March 2010 ISBN: 978-0-9560699-2-4 Price: £12.99

About 'Cool canals Pub Days Out':

Great pub days out along Britain's canals are about soaking up the slow charms of some special canalside pubs, taking time for long lazy lunches on the waterside. Spend the day unravelling the mysteries of fascinating lock flights, discovering the marvels of manmade heritage, and meeting wildlife.

Pub Days Out sets out to offer the enjoyment of locally brewed ales and ciders, while huddling up to cosy open fires in winter and lolling in waterside beer gardens in summer, watching narrowboats drift by.

This, the third title from Coolcanals Guides, is unashamedly a personal tribute to some of the authors' favourite pubs. However, as the title suggests there is more to the book than ales.
